

## Energy Efficient and Healthy Timber Houses- Stommel Haus UK Debut at Homebuilding & Renovation Show

Neunkirchen, Germany June, 2010

With sustainable living a hot topical issue of the 21<sup>st</sup> Century, Stommel Haus a German Premium Manufacturer of high quality, energy efficient timber houses presents for the first time at The Homebuilding & Renovation Show at Sandown Park, Surrey on 26. and 27<sup>th</sup> June 2010.

Barbara Fischer-Clark of Stommel Haus Agency UK says: "The British public are becoming more and more ecologically aware while some councils in the UK already implement the requirements of the government to build energy efficient and sustainable homes."

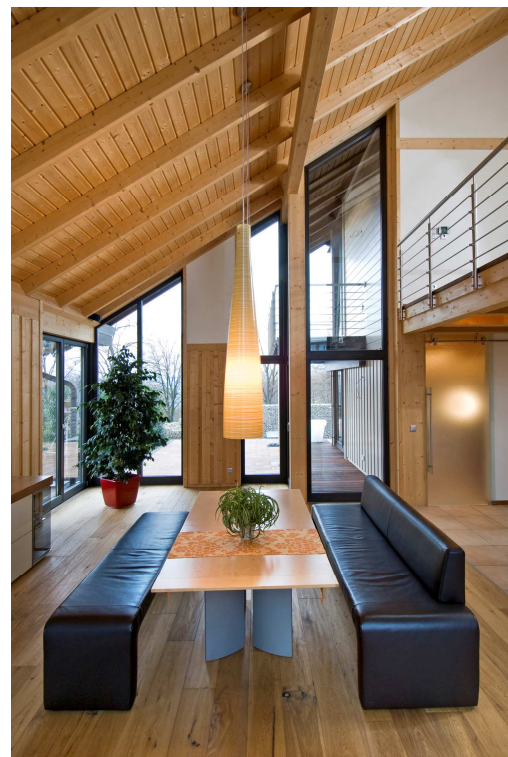

In response to the demand for more eco friendly building, Stommel Haus are presenting their beautiful and revolutionary healthy homes at the Homebuilding & Renovation Show in Surrey.

When it comes to ecologically friendly, energy efficient and healthy living, Germany is well advanced. Stommel Haus reflects this advanced living standard in the design of their houses by achieving very high insulation values and using state-of-the-art eco-friendly heating systems.

Nestled in the small town of Neunkirchen-Seelscheid near Cologne, Stommel Haus develops and produces their certified timber houses with high precision CNC machines. The houses are transported on site where they are erected by qualified teams and made wind and water tight typically within 5-7 days. The high quality interior is then fitted by German craftsmen with only the best branded interior products.

Stommel Haus have manufactured houses for more than 40 years and erected some 1800 houses in German speaking Europe, Switzerland, Benelux and Sweden. "We believe that the designs of our houses both in terms of aesthetics and technology in combination with German quality, punctuality and fixed prices should please the visitors of The Southern Homebuilding & Renovation Show."

The participation at Homebuilding & Renovation in Sandown Park in June 2010 is an important step for the company to further promote the Stommel Haus brand, aiming to provide British people with sustainable, very energy efficient and contemporary houses of very high quality.

Stommel Haus will unveil their latest developments and wall design at stand number 187 at Sandown Park from 26 until 27<sup>th</sup> June 2010. Free tickets can be obtained at [www.homebuildingshow.co.uk/stommel](http://www.homebuildingshow.co.uk/stommel).

### About Stommel Haus

Stommel Haus GmbH is a premium manufacturer of energy efficient, solid timber houses. With 40 years of experience, the family business has proven that building with solid timber, energy efficiency, contemporary design and the attention to quality are no contradiction but lead to providing a modern, ecological and high quality product.

Ein Haus wie ein Baum.

Nestled in the small town of Neunkirchen-Seelscheid near Cologne, Stommel Haus develops and produces their certified timber houses with high precision CNC machines. The houses are transported on site where they are erected by qualified teams and made wind and water tight typically within 5-7 days. The under-floor heating, heat pumps and the interior are then fitted by German craftsmen with only high quality branded products.
